

User

Register User (☑)

As a *traveller* I can register to the site and create a profile

Acceptance Criteria

- No credential checking must be implemented (password, etc.)
- Traveller information should contain EMail address and name

Upload Profile Image (☑)

As a registered traveller I can upload a profile image to my account.

Acceptance Criteria

- There is a profile page for the user where I can upload images
- When showing the profile page of an user, show the image of the user.

Itinerary

Create Itinerary (☑)

As a *traveller* I can create an itinary which shows transport and accomodation for a trip such that I can view it later.

Acceptance Criteria

- An itinary must have at least the following fields:
- Title, e.g. "Family Trip to Norway"
- Destination
- Start date of the trip
- Short description of the trip (max. 80 chars), e.g. "Explore the fjords of southern norway."
- Detail description of the trip (long text).

View Itinerary (☑)

As a *traveller* I can viefy my ititinary such that I have an overview over my travel arrangement.

Acceptance Criteria

- When signed in, a list of all my itinaries is shown (title, start date)
- I can select an itinerary and the all details are shown

Search Trips (☑)

As a guest or traveller I can search for itineraries of other travellers.

Acceptance Criteria

- I can input various search criteria
- The result is shown in a list

Add Travel locations (☑)

As a traveller I can add locations to a itinerary

Acceptance Criteria

- The location has a date range (from, to), a name and a short description.
- I can add images to that location.

Travel locations and Maps

As a traveller I can choose locations directly from a map when adding a location to my itinerary

Acceptance Criteria

- When adding a location, I can open a map view
- I can select a location on the map
- The name of the location is automatically filled in based on the map selection

Maps Integration

As a traveller I can view the locations of my itinerary on a map

Acceptance Criteria

- On the itinerary page there is a map showing all locations of the itinerary
- The map shows markers for each location
- When clicking on a marker, the name and date range of the location is shown.

Social Interaction

Like and comment (☑)

As a traveller I can like and comment the trip of another traveller

Acceptance Criteria

- I can like (only once) the trip of another traveller
- I can optionally add a comment to the like
- On the travel plan page the number of likes are shown
- On the travel plan page I can optionally show the comments

Personalized Newsletter

As a traveler with specific interests, I want to receive a personalized newsletter containing content shared by other travelers with similar profiles, so that I can get relevant inspiration for my upcoming or ongoing trips.

Acceptance Criteria

- The newsletter content is based on my interests, destinations, or past travel behavior.
- Content is sourced from other travelers with overlapping interests or similar itineraries.
- I can adjust the frequency of the newsletter or opt out entirely.

Recommendation Engine

As a traveler, I want activity recommendations tailored to my interests and travel context, so that I can discover suitable activities without spending time searching.

Acceptance Criteria

- Recommendations consider location, travel dates, preferences, and trip duration.
- I can mark recommendations as relevant or irrelevant.
- Future recommendations update based on my feedback.

Travel Information

Weather-Based Insights

As a traveler, I want weather information enhanced with practical advice related to my itinerary, so that I can plan my activities appropriately and avoid disruptions.

Acceptance Criteria

- The app displays weather forecasts for each destination and date on my itinerary.
- Weather warnings or severe conditions are clearly highlighted.
- Practical advice is provided based on weather conditions (e.g., "Carry an umbrella," "Avoid outdoor activities due to high UV index").
